SIR,

With reference to the correspondence ending with Government Order No. G. 10305-6/Census 37-30-6 dated the 10th April 1931 regarding the temporary establishment required for the Abstraction Office, I have the honour to state that to speed up the compilation of tables I to V and table XXI, I intend to employ twenty more compilers. The compiling sections should also have Superintendents. I had intended to ask for sanction to employ four Supervisors for these sections and this was omitted by oversight. It is also desirable to employ two Inspectors as soon as the Abstraction Offices begin work. The pay of the additional Compilers and the Supervisors will be Rs.30/- and Rs.40/- each per mensem as for the Compilers and Supervisors whose employment has already been sanctioned. The pay of the Inspectors may be fixed at Rs.55/- each per mensem. I request that sanction of Government may kindly be obtained to the entertainment of the above establishment as necessity arises. The cost will be met from the provision in the budget of the Department for Temporary Establishment in the Abstraction Office.

I have the honour to be,

Chief Secretary to the Govt. of His Highness the
Maharaja of Mysore.

SIR,

With reference to your letter No.G.12075/Census 37-30-10 dated the 4th June 1931 enquiring what will be work of the Inspectors proposed to be appointed in the Abstraction Office, I have the honour to state that the primary duty of the Inspector is to exercise general control on the work of the sorting sections from outside and see that sorting is done accurately. The Supervisor in charge of each section is responsible for the discipline of the section and for the giving an account of the slips dealt with in his section under the headings prescribed for the various tables. He and his sorters are one body. His time is also mostly taken up with verifying and accepting the figures given by his sorters. It is therefore found necessary to provide separately for constant checking of the sorting as it is going on and the verification of the correctness of the figures given by a supervisor as a result of the sorting of his section. The Assistant to the Superintendent cannot devote enough time to this work so as to prevent error and manipulation of figures in the large staff of about 120 working under him. The Inspector is intended to help the Assistant in this work and bring matters requiring attention to his notice.

2. Three Inspectors were employed in the Census of 1921 on a pay of Rs.60/- a month. It is proposed to employ only two Inspectors this time and the pay will be Rs.55/- per mensem.

I have the honor to be,
Sir,
Your most obedient servant

M. Venkatesa Iyengar
